

Triangles

BULLETIN

No. 178
December 2011

SIGNS OF A NEW DISPENSATION

One of the most obvious signs of an emerging spiritual dispensation is the drastic change occurring everywhere within the fabric of human life due to a shift in human consciousness. What this era will reveal depends very much on the decisions that are made now in the way we respond to the challenges of the early twenty-first century and how we strive to manifest more compassionate human societies.

Perhaps one of the most positive signs is the growth of human planning which indicates that humanity is beginning to develop the rhythmic organisation of purpose upon the physical plane. The use of the Great Invocation is a means of empowering this process and inspiring ever more inclusive planning, releasing the will-to-good through the very simple word – LET. Used correctly, the word LET is incredibly invocative, for it is both a demand and a request. It is made assertively yet with reverence and humility:

LET light stream forth into the minds of men, *LET* purpose guide the little wills of men,
LET light descend on Earth, *LET* the Plan of Love and Light work out,
LET love stream forth into the hearts of men, *LET* Light and Love and Power restore the Plan on Earth.

These six ‘directives’ are all active in the world on a vast scale visible in the work of the new group of world servers, and this is a deeply encouraging sign. The Plan exists and our service, more now than ever before, is to give all we can in our inner and outer lives to assist. In the midst of a planetary crisis of epic proportions we need to learn to bear the load – the pressure of our times, because these are the gates of opportunity. The new group of world servers is striving to touch and evoke the energies required for the amelioration of planetary conditions. New vibrations, new permutations and experiments with lighted substance can therefore be expected.

From an energetic point of view, the new consciousness is forming around the archetype of the triangle, the symbol of the soul. As we find ourselves at a higher level of selfhood – one of group consciousness – the pattern of triangles is being carved in the etheric structure of the planet allowing a freer circulation of energies. The very advent of the planetary service of Triangles is a sure sign that a new dispensation is underway, erecting new pathways of communication between higher and lower, inner and outer, until one day humanity will stand free – free to transcend the personal, separative consciousness and become of “one mind”. What greater service can we do to usher in a new dispensation than to simply light up and empower our triangles daily to restore the Plan on Earth?

NOTES ON THE NETWORK

“Enlarge the work of the Triangles so that, subjectively and etherically, light and goodwill may envelop the earth.”

All who engage in Triangles cannot but be inspired by the simplicity yet profundity of the work. In the few minutes we spend each day weaving in the light and releasing spiritual potencies into the arena of human consciousness we have played a part in lifting the human family out of darkness into a clearer light.

Over the years, the work has grown and now in virtually every country of the world men and women of goodwill link up daily in their triangles. The work sounds its own distinct, quiet yet powerful note engaging people of all races, backgrounds and religions. From Bangladesh to Belize, from Latvia to Lesotho and from Thailand to Togo the Triangles network is energised releasing beneficent waves of spiritual livingness into the hearts and minds of the human family. And, whilst, the work grows through its own inherent potency, we all have a part to play to ensure that “light and goodwill may envelop the earth.”

A number of co-workers this year sent in their ‘Form a Triangle Online’ questionnaires with a view to forming a triangle online with other people of goodwill throughout the world. There are now nearly 500 co-workers listed on the ‘Form a Triangle Online’ web page. For those who would like to form a triangle, and who have access to the internet and an email address, it has never been simpler to form a triangle with other like-minded people. So, please do use this opportunity in forming another triangle. Further details can be found at:

www.triangles.org/questionnaire

Triangles articles were published in two magazines in the UK this year – ‘Sundial House’ Newsletter and ‘The Seeker’ magazine’. Also, an advertisement featuring the work of Triangles was placed in an annual South African healing

publication – ‘Pathways to Healing’. Next year, we hope to do more along these lines.

We are pleased to report that the number of triangles formed this year has increased. It is always a joy for us at headquarters to receive details of new triangles. New co-workers are sent introductory Triangles literature and are also included on our mailing list to receive the quarterly Triangles Bulletin.

The Bulletin is now available in 15 language editions – Czech, Danish, Dutch, English, Farsi, French, German, Greek, Hungarian, Italian, Polish, Portuguese, Russian, Spanish and Swedish. We are sincerely grateful for the selfless work of the international translators who give of their time in order for the Triangles work to be sounded in so many parts of the world.

Last year the Triangles video was released on ‘You Tube’: www.youtube.com/trianglesnetwork . The video aims to help introduce the work to people of goodwill throughout the world and to encourage them to form triangles of light and love. You might care to share the video with Facebook friends and others, as a way to help foster interest in Triangles. The video is also available on DVD from headquarters.

This year we have received a number of reflections on Triangles from co-workers around the world. As a result, we have allocated two ‘Sharing Group Thought’ pages in this Bulletin. We would like to thank everyone who contributed.

Humanity is poised ‘twixt the light and the dark. The broad, sunlit uplands of an expanded awareness beckon. By linking up in our triangles we energise the network, so that the planet is enfolded in a perpetual mantle of light and goodwill, heralding a new cycle of enlightened thinking and purpose.

Our work is truly a global effort. Your continued support helps to ensure that the emerging, imminent spiritual realities reach their conclusion in the life of humanity.

SHARING GROUP THOUGHT

Every year we are pleased to feature in the Bulletin a selection of thoughts on Triangles that we receive from co-workers around the world. We hope, too, that you will be encouraged to share your insights with the worldwide group. You can send your papers by post or email to headquarters or online at:

www.lucistrust.org/en/service_activities/triangles/sharing_group_thought/share

Triangles work has become the most important spiritual service that I perform. It is how I begin and end my day.

USA

Yes, the search for God has only just begun. We in the Triangles Groups should be motivated to carry on with the work which is entrusted to us. We need not relax at all. The changes which are taking place everywhere in the world are clear signs showing that the Great Ones are on our side. We must not allow distractions to disturb us. The 'Consuming Fire' is at work. We must not at all allow this Fire to be quenched through discouragement and setbacks. Yes, the search for God has just begun. We must keep it up through our noble Work.

Nigeria

On reflection the Triangles work is an exercise and training in "self-forgetfulness, harmlessness, and right speech" – the three attitudes that the disciple strives to attain and maintain throughout the 24-hour cycle.

By focusing on the Triangle as one creative unit the individual self is forgotten in favour of the purpose of the one soul. The application of intention through service to the light renders a harmless channel into which light, love and power are irresistibly drawn. The saying of the Great Invocation and the sounding of the 'OM'

is one of the highest and purest uses of language and 'right speech' – three people, three sacred attitudes, three OMs. One Work.

UK

The true purpose of humanity is to distribute the energy of its spirit to its surroundings. Working in groups toward this purpose will increase the effect of the energy distribution in geometrical progression. A group of three acts as a lens that has a magnifying power much higher than the lens of the individual acting alone.

Anon.

We are doing an international triangle and providing the world with greater light. From U.S. – New Zealand – Colombia we spread this light around the world with gratitude. Love, light to all beings on Earth.

USA

It gives me a great pleasure to associate myself with this noble group to serve humanity. Nothing will stop me in participating in the daily Triangles work.

Nigeria

Life is a gift that helps one to learn, grow and Be, Live its magic, meeting oneself again, taking advantage of the Inner Silence and allowing one's soul, from its centre, from one's divinity, to show the path to accomplish one's plan of life, going back home.

Spain

Triangles is the key and cornerstone of all the work, the building block upon which all other work can proceed and we are told that it is close to the heart of Hierarchy. It is the open door to the worldwide work and the living network of light around the world, thus enabling light to descend on Earth.

cont'd over page....

SHARING GROUP THOUGHT cont'd

The work of Triangles is group work and it is a service which reaches to the inner essence and heart of divinity within the triangle, from which it builds right human relations and reaches out to the worldwide network, enabling the will-to-good to stream forth in greater livingness into human hearts. Triangles uses the will energy in order to strengthen the inner flame within the triangle, which, in turn adds strength and power to the network which together with the energies of light and love creates a living synthesis of light around the world.

UK

Every triangle of light and goodwill is a Creation which remains planted on the inner and etheric side of life. They are left to do their own work even when we are not concentrating or thinking about what has been built, not least because the circulatory and rhythmic effect takes place on the inner as well as the outer planes. Because of the anonymity of the work, and rightly so, it is easy to lose the practical value and vision of why we engage in this work. These words serve to remind: "The function of these Triangles is in reality to facilitate the work of distributing the pure incoming love energy (expressing itself as light and as goodwill) into the Hierarchy and Humanity".

UK

Triangles is a Science, associated with the Science of Impression. While it has its emotional component, as well as its mental "horizontal" component, it likewise has a vertical component that will make use of the emotional component for recognition and widespread appeal, but likewise for "practical" application.

In the Scientific American article of July 2008, "The Self-Organizing Quantum", the authors propose the theory of "Causal Dynamical Triangulations": "This approach...is a modern version of the Euclidean approach. It approximates spacetime as a mosaic of triangles, which have a built-in distinction between space and time. On the small scale, spacetime takes on a fractal shape." The article goes on to indicate that "cause" is added, mathematically, to some quantum formulas that have, hitherto, failed to result in a physical universe that we actually live in.

USA

The work of Triangles is more essential than ever in these rapidly changing times that are creating many negative conditions.

Australia

Triangles is a world service activity in which people link in thought in groups of three to create a planetary network of Triangles of light and goodwill. Using a world prayer, the Great Invocation, they invoke light and love as a service to humanity. Further information is available on request from Triangles.

The Triangles Bulletin is for men and women of goodwill and is published four times a year in Czech, Danish, Dutch, English, Farsi, French, German, Greek, Hungarian, Italian, Polish, Portuguese, Russian, Spanish and Swedish. Triangles is an activity of the Lucis Trust, a non-profit educational charity which exists to promote right human relations.
