## Working to Transform Relationships: With Each Other – With the Planet

---

One of the most urgent problems facing humanity today is the relationship between us all and the natural world. Selfish and exploitative attitudes have dominated this relationship to such a degree that, now, much of the natural world is threatened. However, we can see over the past few decades a growing awareness of the need to transform human attitudes towards nature. And thanks to the dedicated work of spiritual and environmental groups and communities that have been working in this area, there is already a huge increase in the number of people who embody a more universal and inclusive vision. Yet many more people must respond to this soul urge if ecological disaster on a global scale is to be averted.

**TRIANGLES** is a network of men and women who give time each day to visualise a flow of light and goodwill into human hearts and minds throughout the world. Linking in thought in threes, they create triangles of right relationship through which these energies can be released. Triangles workers use a world prayer – **The Great Invocation** (see overleaf) – invoking the light, love and spiritual will that will help to foster right relations, both with each other and with the planet.

Many ask, why work in triangles? The triangle has been recognised down the ages as a symbol of divinity and of our spiritual centre, the soul. Also, from earliest times human beings appear to have grasped the idea of the three-fold nature of the universe – the divine, the human and the natural world. The idea of a trinity involving nature was central to ancient belief systems which held natural forces in awe and wonder. We might see such a trinity symbolising the relationship between humanity and the earth with the third point representing the sun, itself a symbol of the soul nature – the centre of light and love within each of us that must qualify our individual and collective relationships with the natural world.

We invite you **to form a triangle** and to link up with the network of light and goodwill being created by Triangles workers around the world. A few minutes each day given to strengthening the network will help **to transform relationships: with each other – with the planet.**

A quarterly Bulletin is sent to all Triangles members.

## THE GREAT INVOCATION

From the point of Light within the Mind of God  
Let light stream forth into the minds of men.  
Let Light descend on Earth.

From the point of Love within the Heart of God  
Let love stream forth into the hearts of men.  
May Christ return to Earth.

From the centre where the Will of God is known  
Let purpose guide the little wills of men —  
The purpose which the Masters know and serve.

From the centre which we call the race of men  
Let the Plan of Love and Light work out  
And may it seal the door where evil dwells.

Let Light and Love and Power restore the Plan on Earth.

Many religions believe in a World Teacher, known under such names as The Lord Maitreya, the Imam Mahdi and the Messiah, and these terms are used in some of the Hindu, Muslim, Buddhist and Jewish versions of the Great Invocation.
