

## **TOPIC:**

# **WHY IS BRIDGING BETWEEN SOUL AND PERSONALITY IMPORTANT IN THE WORK OF BUILDING RIGHT HUMAN RELATIONSHIPS? AND WHY IS IT ESPECIALLY IMPORTANT DURING THESE CHALLENGING TIMES?**

## **INTRODUCTION**

Bridging between soul and personality is the first step towards spiritual awakening without which the life purpose (destiny) is lost. Whereas the soul is the repository of spiritual virtues: the energies of love, joy, peace, patience, gentleness, goodness and faith against which there is no law (Gal. 3:22 – 4), the personality is individualistic, selfish and self-centered- seeking only after its own pleasure and the forces (works of the flesh) are wrath, hatred, strife, envy and murder (Gal 3: 19) and hence is under bondage.

Bridging here is simply awakening the consciousness of the personality to the higher consciousness of the soul. In other words aligning the forces of the personality to the energies of the soul in what is termed at-onement. When the personality yields to the soul (bridging), it becomes group conscious (nature of the soul) and the work of building right human relationships begins. Bridging brings about a right relationship between the personality (self) and the soul (Higher self, ego) proceeding to right relationship with the Spiritual Triad, Culminating in right relation between the Monad/Spirit and personality (man) in a series of expanding consciousness termed initiations. This is our aspiration.

## **RIGHT HUMAN RELATION**

The energy of right human relation emanates from the energy of love-wisdom, which is compassionate, inclusive, wise and non-emotional and encompasses light, will and purpose.

Underlying right human relations is goodwill (love in action) the catalyst for constructive changes between nations, communities and individuals.

In these challenging times, the development and practice of right human relation is the key to the vision/thought form which is to be precipitated into the consciousness of the human family proffering solution to human needs. When we visualize right human relation (Goodwill Meditation) as a living, flowing current of light, love and purpose, we help create a network of these qualities which surrounds our planet.

The energy of right human relation is magnetic and draws individuals together for right understanding and betterment. No nation can live unto itself today, and the vision of ONE WORLD depends on right human relations. Nations will stand or fall just in so far as they measure up to that VISION – Alice Barley.

## **THE LAW OF RIGHT HUMAN RELATIONS**

This is empowered by the Life, Spirits, Fire, Power and Will of Monadic essence as well as by the compassionate, intuitive inclusiveness and understanding love of the soul and the Heart.

With bridging/alignment a direct line or thread of God's will connects the highest to the lowest points becoming in the due time a cable of ascension for the sons of men and descent for the loving, caring spirit of God.

## THE PRACTICE OF RIGHT HUMAN RELATIONS

This must begin within oneself and will bring about an alignment uniting (bridging) the brain, the emotional body, mental vehicle and eventually the soul: the result is right relation between the individual, family and friends, and will be followed by right group relation, right national and international relation, enabling the unfoldment/demonstration of humanities' innate divinity.

In other words to make things right and bring things to clarity begins in the mind and that is our duty, the gift and responsibility of the human being at this time. Thus each creates a healing sanctuary in his own mind, in our lives calling all our relations to enlightened actions. Establishment of right human relation demand organization, business astuteness, foresight, psychological courage and persistence. It needs dedicated, trained workers, money and all the expertise of living harmoniously in today's world.

## STEPS TO BUILDING RIGHT HUMAN RELATIONSHIP

The goal of right human relations in to relate better with others and this is necessary in all inter-personal relations, businesses and workplaces.

How do we go about achieving this?

- (1) Communication skill
- (2) Empathy – help to attract others, interests
- (3) Stress management
- (4) Conflict resolution

These will help you relate better with others, and make you more politically aware and an efficient expert.

## IN CONCLUSION

Building right human relation with the goal of relating better with all that there is the way to peace and harmony in the world today and it begin within each and every one of us with bridging between the soul and the personality, and living by the right Values: a love of **TRUTH**, a sense of **JUSTICE**, a spirit of **COOPERATION**, of sense Personal **RESPONSIBILITY** and Serving **COMMON GOOD**.
