**Please note that the times published here are for 'standard time' within the zone indicated. When and where 'summer time' alterations are in effect throughout the zone, it will be necessary to adjust the standard time shown according to those changes.**

\* In 2018 the dates for British Summer Time are 25th March to 28th October.  
When and where British Summer Time is in use, add one hour to the above times.

\*\* The astrological sign shown in this column is the sign relating to the sun rather than the moon.

**The Three Spiritual Festivals will be celebrated on the following days — EASTER: 31st March; WESAK: 29th April; CHRIST'S FESTIVAL and WORLD INVOCATION DAY: 29th May. Please check locally for the actual days of the festival meetings.**

All times are taken from the Swiss Ephemeris.

*In all meditation it is of value for the student to remember that, from the standpoint of permanent benefit, it is easier to meditate effectively during the period from the new moon to the full moon, than from the full moon to the new moon. The first half of the lunar cycle is one of intensification, absorption and accretion; the second half is one of assimilation and distribution. More real progress over a long period can be made by observing this cyclic law.*

*Wisely utilising newly acquired energies keeps inflowing and outflowing channels open and prevents emotional, mental and psychical congestions, which may otherwise be experienced, with their accompanying physical consequences.*
