The subjects dealt with in this treatise is of very real importance, for it forms the basis of that which we shall be considering. The total lack of a wider consciousness than the individual and the personal, acts as a bar to the true comprehension of things macrocosmic, but if the occult method is adhered to, if the Law of Correspondences is studied, and if we ever reason upward from the microcosm to the greater Whole, then glimpses will be caught of vast realms of realisation and vistas of spiritual unfoldment will open up before us, undreamt of hitherto.

## CHART IV

## CHART OF THE PLEROMA ACCORDING TO VALENTINUS

First the • (Point), the *Monad*, Bythus (the Deep), the unknown and the unknowable Father. Then the  $\triangle$  (triangle), Bythus and the first emanated pair or *Duad*, Nous (Mind) and its syzygy Aletheia (Truth), Then the  $\square$  (Square), the dual *Duad*, *Tetractys* or *Quaternary*, two males ||, the Logos (Word) and Anthrôpos (Man), two females, their syzygies, = Zoê (Life) and Ekklesia (the Church or Assembly), *Seven in all*. The triangle, the *Potentiality* of Spirit, the Square the *Potentiality* of Matter; the vertical straight line the *Potency* of Spirit, and the horizontal the *Potency* of Matter. Next comes the Pentagram  $\star$ , the *Pentad*, the mysterious symbol of the Manasaputras or Sons of Wisdom, which together with their syzygies make 10, or the *Decad*; and last of all, the Hexalpha or interlaced Triangles  $\star$  the *Hexad* which with their syzygies make 12, or the *Dodecad*. Such are the contents of the Pleroma or Completion, the *Ideas* in the *Divine mind*, 28 in all, for Bythus or the Father is not reckoned, as it is the *Root* of all. The two small circles *within* the Pleroma are the syzygy Christos-Pneuma (Christ and the Holy Spirit): these are *after*-emanations, and, as such, form one aspect, typify the descent of Spirit to inform and evolve Matter, which *essentially* proceeds from the same source; and another, the descent or incarnation of the Kumâras or the Higher Egos of Humanity.

To the solar system of the next order to work in connection with the planetary Logos of his own line as ruler of a kingdom or life wave in the system, and not just in a scheme.</li> </ol>
5. The solar Pitris . . . . .	The highest three groups will become major planetary Logoi; the lower four groups will become minor planetary Logoi.
6. The human evolution . . . . .	To become the solar Pitris of another cycle. To follow any of the paths earlier enumerated. Those who become solar Pitris, being the bulk of humanity, return to Sirius to be breathed out again into activity.
7. The lunar Pitris . . . . .	To become men. They will in their higher grades pass directly into the animal evolution of the next cycle and so eventually individualise. Their three higher grades will become animal-men, and the lower four will contribute to the quaternic forms of the men of the next creation.
8. The animal evolution . . . . .	Human kingdom.
9. The vegetable evolution . . . . .	The animal kingdom.
10. The mineral evolution . . . . .	The vegetable kingdom.
11. The four higher grades of lesser Builders . . . . .	They will form the manifested double or form of that mysterious third evolution of the next system; that is, the etheric body of the planetary entity. This mysterious life is as yet an unfathomable mystery and one which will not be revealed till the final one of the triplicity of solar systems of our solar Logos.
12. The three lower grades of the lesser Builders . . . . .	The physical body in its densest form of the planetary entity.

## Solar and Planetary Hierarchies

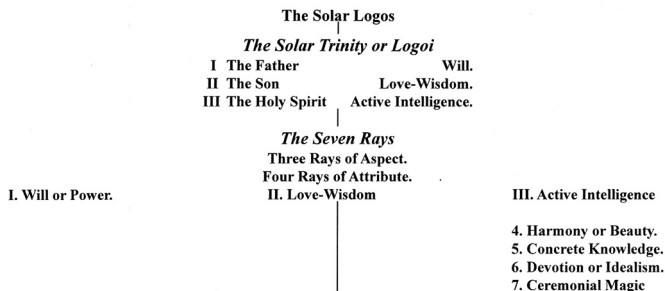

“This diagram is an outline of a portion of the Hierarchy at the present moment, and gives only the outstanding Figures, in connection with human evolution. A similar diagram from the standpoint of the deva evolution would be differently arranged.”
