WESAK

The Wesak Festival, celebrated at the Taurus full moon, is said to be the day of greatest spiritual opportunity in the year. For Buddhists, Wesak marks the birth, enlightenment and death of the Buddha. In the ageless wisdom it is a living event, a time when a great blessing is poured forth upon the world by the Buddha. This blessing results in an unusual inflow of life and spiritual stimulation, vitalizing the aspiration of all people of goodwill everywhere. By linking in meditation with this event we aid in the illumination of human consciousness and the spiritual transformation of our planet.

We are living in a time when the distinctions that divide us are increasingly putting humanity in peril. An effort to invoke energies of light at Wesak can call forth response from those Beings who are the source of light and love for all. Acting as a protective shield, this band of enlightened Beings includes the Buddha and the Christ, as well as Rishis and saints of all traditions.

PLEASE JOIN IN THIS GROUP SERVICE ON BEHALF OF HUMANITY

"I call your attention to the fact that at the Wesak Festival the Buddha returns to bless His people everywhere and to convey the message of wisdom, light and love to humanity."

THE GREAT INVOCATION*

*From the point of Light within the Mind of God
Let light stream forth into human minds.
Let Light descend on Earth.*

*From the point of Love within the Heart of God
Let love stream forth into human hearts.
May the Coming One return to Earth.*

*From the centre where the Will of God is known
Let purpose guide all little human wills —
The purpose which the Masters know and serve.*

*From the centre which we call the human race
Let the Plan of Love and Light work out
And may it seal the door where evil dwells.*

*Let Light and Love and Power restore
the Plan on Earth.*

WORLD INVOCATION DAY

May 29th, 2018

A day of prayer and invocation when people of every spiritual path join together to use the Great Invocation. Humanity's demand for the light, love and spiritual direction needed to build a world of justice, unity and peace is concentrated into one focused invocative cry on this day.

Materialistic values have led humanity to a state of profound crisis. Our very survival is threatened by our lack of wisdom and will to feed the hungry, share our plentiful resources and seriously address the many other critical problems confronting the human family.

Millions of people share the conviction of an inner spiritual unity that transcends outer differences of race, nation and creed. As men and women of goodwill the world over give expression to this conviction, a process of planetary transformation is increasingly taking place.

The world's problems are of humanity's making and they are for humanity to solve. But the essence

of the spiritual life lies in knowing that we are not alone. Behind the scenes and guiding humanity at all times is a spiritual Hierarchy of Being. Therefore the energies of divinity are abundantly available and, on World Invocation Day an appeal is made for their release. World Invocation Day is held each year on the day of the Gemini full moon, the Festival of the Living Christ.
