Time Cycles of the New Group of World Servers

(Article By Foster Bailey)

What is the time cycles of the New Group World Servers?

- The activities of the new group of world servers follow a rhythmic pattern which is based upon successive three-year periods, each building upon the last and maintaining all that has been gained.
 - The first cycle, Crisis /Consolidation includes a process of inner re-integration and subjective conditioning and recharging
 - The second cycle, Tension/Expansion sees the unfolding of the results of the inner vision and the inner choice
 - The third cycle, Emergence/Impact is when all this activity bears its fruit in action, sustained, strong, well balanced and effective.

Significances between the two time periods

- Aside from similarities in world events, the following is stated in the Foster Bailey article:
 - In 1942, *“that the inner spiritual victory was gained and the ultimate result assured,”* and that this outcome, *“resulted in the great year of 1945 when it was possible for the Christ to make His great pronouncement of return and for the issuing of the Great Invocation”*.
 - Interestingly, the year 2025 has the exact cyclical terms as 1945. With an important difference, being that in the year 2025 is when the Spiritual enclave meets to determine the direction of humanity for the next one hundred years.

Significances between the two time periods

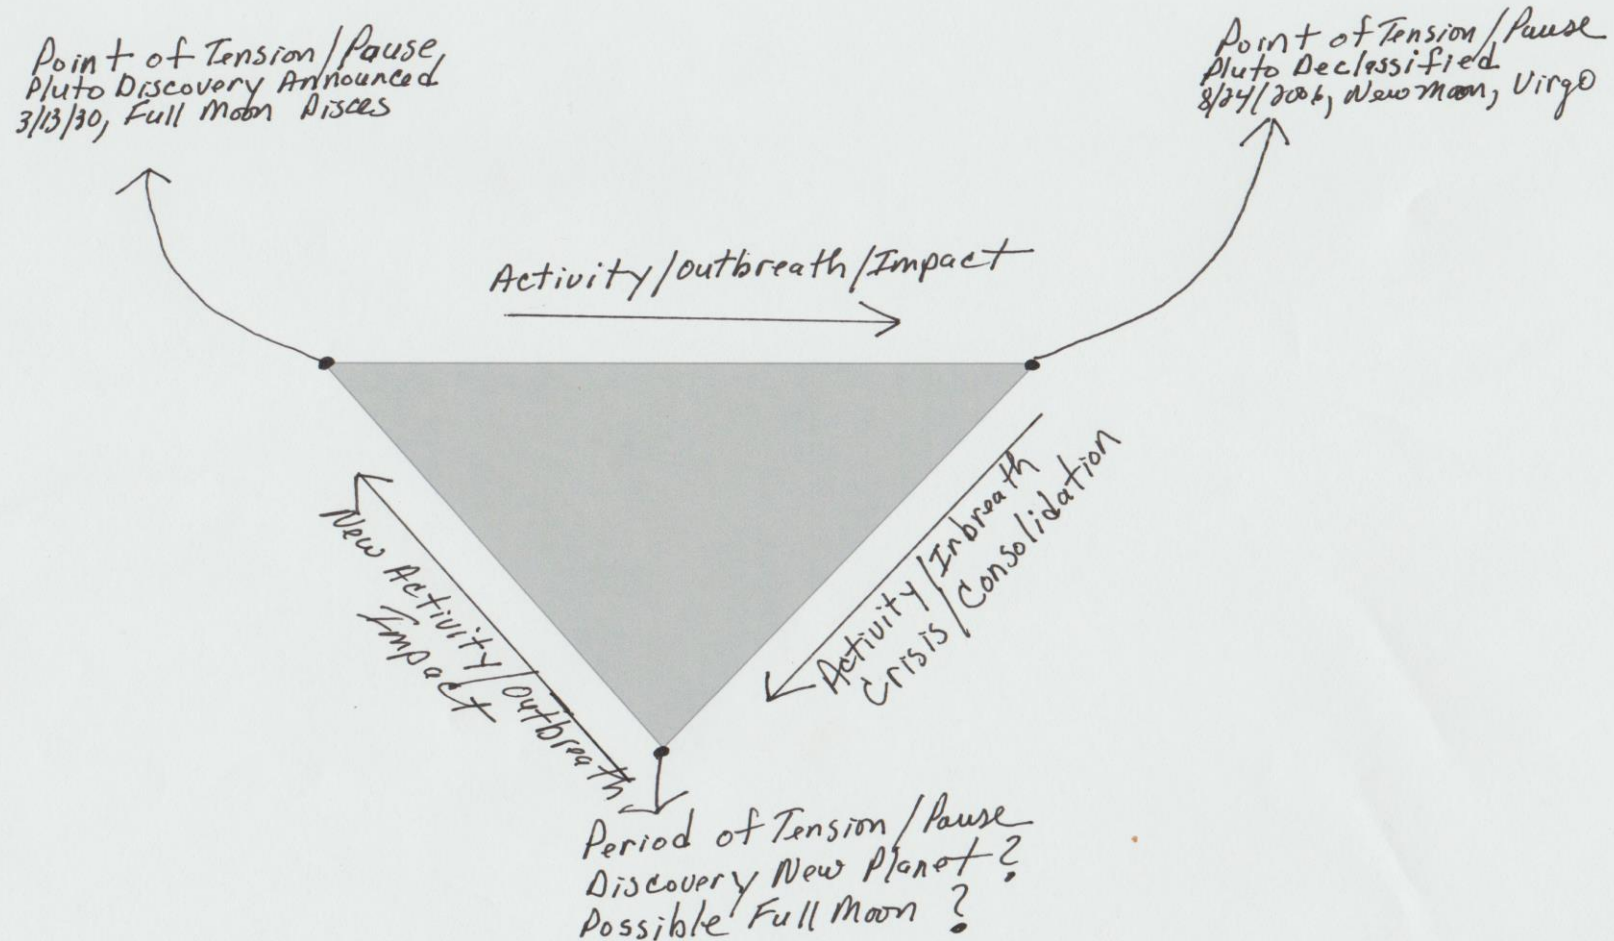

Let's talk about Pluto

- Pluto is a non-sacred planet that expresses the qualities of the 1st ray and these 1st ray qualities have been known to exist by esoterists for millennium;
- First ray, via Pluto, comes in powerfully via Scorpio and Pisces;
- Hunt for “Planet X”; recognized the gravitational pull of the outer planet by an unknown planet;
- It's discovery was announced on March 13, 1930 one day prior to the full moon in Pisces;
- It was de-classified on August 24, 2006 one day after the new moon in Virgo, the opposite sign of Pisces;

Discovery of New Planet # 9?

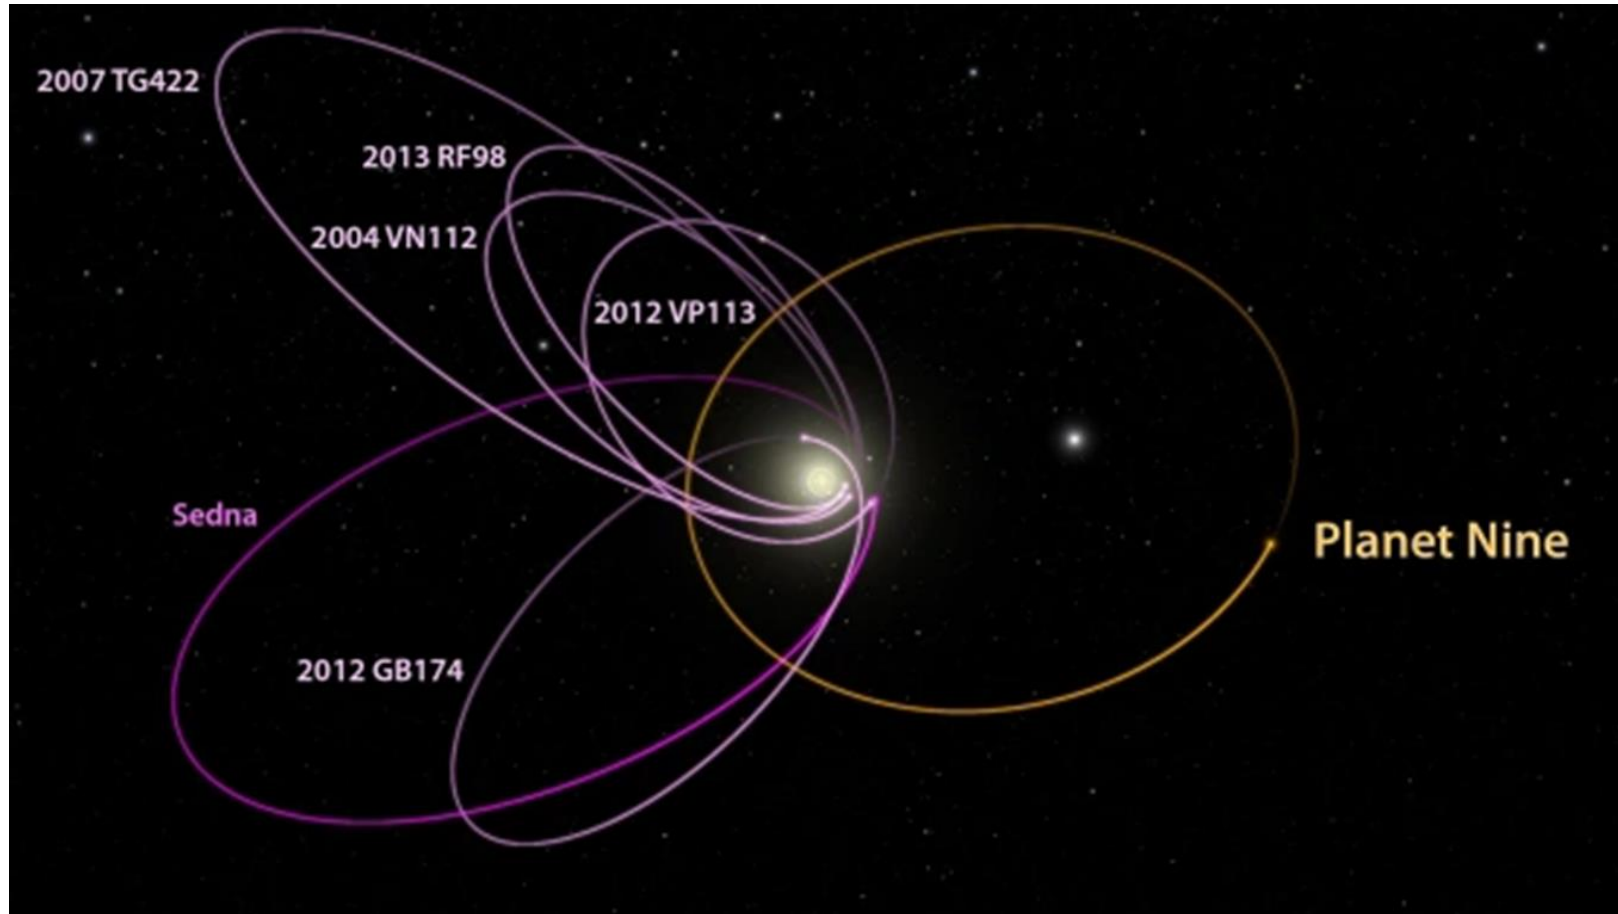

- Astronomers indicate that there is a high probability that a planet exists beyond Neptune based on the gravitational pull of asteroids, dwarf planets including Pluto in that area of space; (*The Orbit of Planet Nine, Michael E. Brown¹ and Konstantin Batygin¹, California Institute of Technology, Accepted August 22, 2021*)
- Astronomers at California Tech indicated that there is a, “0.4 percent chance that it’s a fluke”. (With respects to the gravitational pull). Which means there is a 99.6 percent chance that the planet exists;
- A physical planet has not been located nor has an official discovery been made, after years of searching;
- Elongated orbit similar to Pluto;
- Gaseous planet similar to the outer planets and six times the mass of earth;
- The astronomer that was instrumental in the declassification of Pluto is the lead astronomer in the hunt for planet 9;
- Is this the same hunt for Planet X?
- Emerging from the etheric realm?
