

The 4th Stanza of the Great Invocation

Judit Hegedus

From the centre which we call the race of men
Let the Plan of Love and Light work out
And may it seal the door where evil dwells.

Let Light and Love and Power restore the Plan on Earth.

Thank you very much for this opportunity to continue on the heels of the wonderful talks of the past three weeks. While the first three stanzas relate to Light, Love and the Will, embodied by the first three rays, the fourth stanza is focused on Humanity itself = the center which we call the race of men. The second line of the stanza – let the Plan of Love and Light work out – is establishing the firm anchoring of Humanity to Hierarchy, from the point of view of Humanity. When thinking about this connection, I always envision a light-filled line of Love and Light connecting the two. It is affirming a demand to recognize, and commit to fulfill the higher spiritual possibilities of Humanity by aligning it with the Hierarchy, and its Plan. In essence it is calling for all of us, members of Humanity, to recognize the true calling of Humanity bridging those below with those above. All of us have been walking towards understanding that we really human beings with divine destinies. Some of us already do understand it and consciously serve the Plan. All others still on the way and our mission will have been completed when the last person has redeemed themselves.

To “let the Plan of Love and Light work out” is taking on a very significant responsibility although grammatically the line implies a certain passive approach – we are just letting something happen. All of us human beings share in this responsibility but those consciously serving the Plan play a very important role. But what does letting the Plan work out actually mean? It means choosing the service of the Whole consistently, always, over separatist plans and ideas; persevering spiritually in the face of challenges; choosing the higher over the lower, becoming Whole and recognizing the Wholeness of our fellow human beings.

Humanity's soul Ray is the 4th Ray of Harmony through Conflict, and its personality ray is the 5th Ray of Concrete Knowledge. This provides important information for the above-mentioned action of “letting the Plan of Love and Light work out”. The 4th Ray implies we eventually will arrive at beauty and harmony but only through the working out of conflicts and arriving at solutions. We will face stress tests as Humanity but we have no option but to keep working towards solving these problems if we want to stay true to our Soul. Conflicts should be seen as something to work through and solve, and not as somehow proof that Humanity cannot be redeemed or is insufficient somehow. Let's love conflicts because they are a chance for us to practice our Soul by solving them! Only spiritually hard-won harmony is sustainable. Humanity now is facing a series of very serious crises – we can only solve these conflicts together as One Humanity. The personality ray, the 5th Ray implies needing to use the power of discriminating choices, intelligently presented, to gain

knowledge. This we do through our experiences, never forgetting our divine destiny. The 4th Ray of Harmony through Conflict is coming stronger into manifestation in a year or two, so we can expect more crises but at the same time stronger energies to aid us in solving them and creating harmony as a result. We just need to remember not to get stuck at conflict, the lower expression of the 4th ray, but focus on the higher: peaceful resolution of conflict, blending together opposing dualities, intuition, creative artistry.

The last line: “And may it seal the door where evil dwells” is a very interesting one since it doesn’t talk about simply shutting a door, but sealing it, but it also doesn’t say we need to eliminate evil. What is evil? Why cannot we fully extinguish it? There is planetary evil and cosmic evil, forces that we human beings do not actually control, and I think this is what the last line of the 4th stanza is referring to. They are hiding behind the door. It is quite possible that we cannot really talk about evil in connection with Humanity in this sense. What can be evil in connection with Humanity? Human beings produce evil by hanging onto beliefs and ideas whose time had long passed; by being selfish and materialistic, and caring about ourselves only at the expense of others. By choosing separatism over unity and oneness. .. When we do these things, which we can call evil with a small “e”, through our actions we open the door for the planetary and cosmic evil forces. This happened in the 1930’s in Germany. After the Allied forces’ victory in WWII in 1945 this door got closed, mostly, but was left a bit ajar and right now, evil with a small “e” can potentially creep back in. We see this in the strengthening of conflicts all over the world in the past few years but also in the rise of materialistic forces impacting our politics and economics, tearing our societies apart by stoking separatist tendencies. The truth is we need to collectively renounce materialism as Humanity very soon if we want to move forward on our collective path towards redemption. The New Group of World Servers can work in all departments of life to swing public opinion over to the spiritual side, and make this happen. I think this is succeeding – at the same time as the materialistic forces are strengthening, goodwill is also more and more visible in the world. At the core Humanity’s heart is indeed sound! There is also a growing realization about the interdependence of our world, demonstrated by the Internet on the etheric level. With the newly manifesting 4th ray energies we will have more support to actually solve the crises we are currently in and move forward towards the first initiation of Humanity – if we use these energies right.

The last line of the Great Invocation “Let Light and Love and Power restore the Plan on Earth” has the most important word in “restore” for me. Are we working towards something we already had as Humanity many millennia ago? It is actually something Shamballah intended for us to begin with – for this interest project called Earth. We need to restore the Hierarchical Plan consciously, with our own redemption and lessons learned, utilizing the energies available for us, and consciously following the Soul, making our planet sacred in the process.

Thank you.
