

# Cycle of Conferences

World  
Economic  
Forum  
2022

22-26 May

Davos-Klosters,  
Switzerland

Today, in the planning now going forward in connection with the various international conferences and councils of which you all know, the spiritual effort (for the first time in human history) is to bring all of them, as functioning groups, under the direct impact of the energy which motivates and actuates that place where the Will of God is known and the purposes of divinity are defined and projected.

This means that each of the coming world conferences (and there will necessarily be many) will have a greater and far more extensive effect than would otherwise be the case.

## The subjective and objective setting of WEF 2022

This year's annual World Economic Forum will be framed by an unprecedented combination of events in its 50-year history: a global pandemic and ongoing armed conflict in Europe. In the spirit of the gradual re-acceleration now underway, following the outbreak of Covid-19 and subsequent slowing down of global activity, the 2022 meeting in Davos will be WEF's first post-pandemic event to be physically attended.

Undoubtedly, the unusual and challenging set of circumstances is creating an equally unique window of opportunity. From an occult perspective, a point of tension has been reached in world affairs as a consequence of achieving a greater degree of synthesis. It has provoked a crisis, which in time will lead to the emergence of a more inclusive understanding of how to best respond to the challenges of increasing interdependence[1]. From WEF's perspective, periods of global instability are considered opportunities for the Forum to intensify its programmatic efforts[2].

The meeting is held under the theme of *Working Together, Restoring Trust* and, as the events that unfolded since January 2020 have clearly showcased, the crises that humanity is facing at its present stage of evolution are global crises whose resolution requires cooperation beyond the reassurance of mutual profit or the avoidance of mutual extermination. The theme acknowledges that in preparing for the future, joint activity must imbued with the *quality* of trust if it is to accomplish the desired outcomes.

Discussions at the Forum will focus on designing resilient economic systems, driving industrial transformation and growth, enhancing stewardship of global commons (such as the earth's shared natural resources), harnessing the technologies of the Fourth Industrial Revolution, and advancing global and regional cooperation[3].

It is worth noting that as the meeting was moved from its customary date, in January, to the end of May due to the emergence of the Omicron variant, it is brought under the auspices of an entirely different blend of subjective energies, from an astrological point of view. This subjective energy mix is symbolized by Gemini and is one often externalized as multivocality that may generate fluidity, instability, and conflict, but with the potential for subjective inclusiveness which can lead to cooperation and fusion in form or activity[4]. Certainly, such an environment can be conducive to forwarding the Davos' 2022 Agenda, should the global forces coming together be allowed to develop beyond their potential for conflict and the pursuit of unilateral or multilateral interests, to their potential for multifaceted unity and the pursuit of beneficial joint activity.

## Facilitating the expression of spiritual qualities

In this spirit, the *Cycle of Conferences* initiative invites us to contribute to the creation and sustenance of a subjective space surrounding the World Economic Forum and characterized by the focused energy of Goodwill. This way, it ensures that spiritual energies are available to support all those who resonate with them and are able to express them, in the days leading up to the meeting and for its duration.

In the months since January, leading figures in global politics have highlighted the quality of cooperation as one of humanity's competitive advantages over the factors that generate friction along our evolutionary path[5]. With the publication of WEF's 2020 manifesto[6], emphasis has been placed on trust as an essential factor in enhancing digital interaction and transactions, factors now more relevant than ever before, on a global scale. Furthermore, companies are increasingly presented as entities with objectives encompassing their contribution to the resolution of a variety of challenges facing the societies and "biosphere" within which they operate[7]. These extend from overcoming global digital inequity, to sharing responsibilities for humanity's stewardship of its "environmental and material universe for future generations".

To this end, for Davos 2022, the *Cycle of Conferences* initiative aims to deepen the relationship between the energy of Goodwill and the quality or trust which is at the centre of this year's Forum.

# Visualization

1. Link up with the souls of all fellow servers who are meditating on The World Economic Forum.
2. Visualise a tide of lighted energy pouring down from the “Centre where the Will of God” is known, and pouring into the centre Humanity. Imagine the whole group sounding the affirmation of the Will together:  
  
*In the centre of the will of God I stand.  
Naught shall deflect my will from His.  
I implement that will by love.  
I turn towards the field of service.  
I, the Triangle divine, work out that will  
Within the square and serve my fellowmen.*
3. Using the creative imagination, project a lighted seed of ‘will energy’ into the heart of the thoughtform under construction in connection with the forum. See myriad streams of ‘living will energy’ connected to it by co-workers around the world.
4. Reflect for a few minutes on the seed thought:  
  
“Trust is needed in order to overcome the crisis and to have a base for a future-oriented mind and to construct a world for tomorrow\*”  
  
See the essence of any ideas and reflections adding to the potency of the group thoughtform which will help to restructure the economic field in accordance with the divine Plan.
5. Visualise the pulsating nucleus of light at the heart of the thoughtform being fanned into a flame by the group gaze and see its radiation touching the consciousness of all participants at the forum.
6. Quietly sound the *Great Invocation*, imaginatively hearing it being chanted by the worldwide group. As you do so, visualise the outpouring of Light and Love and Power through the five planetary inlets (London/ Darjeeling/ New York/ Geneva/ Tokyo), irradiating and enlightening the proceedings of the forum.
