

# CYCLE OF CONFERENCES

Today, in the planning now going forward in connection with the various international conferences and councils of which you all know, the spiritual effort (for the first time in human history) is to bring all of them, as functioning groups, under the direct impact of the energy which motivates and actuates that place where the Will of God is known and the purposes of divinity are defined and projected.

This means that each of the coming world conferences (and there will necessarily be many) will have a greater and far more extensive effect than would otherwise be the case.

## UN OCEAN CONFERENCE

27 JUNE – 1 JULY

LISBON, PORTUGAL

**THEME: SAVE OUR OCEAN, PROTECT OUR FUTURE**

---

### THE UN OCEAN CONFERENCE

Dear Co-worker,

The *Cycle of Conferences* is placing a focus, beginning today, on the United Nations Ocean Conference taking place in Lisbon, Portugal, from 27 June to 1 July.

Jointly hosted by the governments of Portugal and Kenya, the Ocean Conference represents a major strand of multilateral negotiations as the world community seeks to respond to the problems of the age in the light of the growing realisation of the unity of all life and the oneness of humanity. The theme of the Conference is “*Save our Ocean, Protect our Future*”.

“The Ocean Conference comes at a critical time as the world is seeking to address many of the deep-rooted problems of our societies laid bare by the COVID-19 pandemic and which will require major structural transformations and common shared solutions that are anchored in the SDGs. To mobilize action, the Conference will seek to propel much needed science-based innovative solutions aimed at starting a new chapter of global ocean action”<sup>1</sup>.

## FACILITATING THE EXPRESSION OF SPIRITUAL QUALITIES

The *Cycle of Conferences* visualization initiative aims to “spiritually enlighten the atmosphere on which world conferences vital to humanity’s spiritual progress depend”. The health of the oceans is a critical arena through which the spiritual principles of synthesis are working themselves out in a multitude of policies seeking to foster right relations between humanity and the living earth, in this case the element of water.

The esoteric teachings of Alice Bailey remind us that “the sum total of water upon the earth (oceans, seas, rivers, lakes and streams), far exceeds the dry portion, or land, and every drop of moisture is in itself a tiny life, fulfilling its function and running its cycle. The mythic forms [of these] myriad lives are built into a form through which an evolutionary deva is seeking expression”<sup>2</sup>.

So as we project lighted seeds of living will energy into the heart of the thoughtform under construction at the UN Conference we might also ponder how “a new chapter of global ocean action”<sup>3</sup> might be harmonized with the evolutionary deva seeking expression.

# VISUALIZATION

1. Link up with the souls of all fellow servers who are meditating on the UN Ocean Conference.
2. Visualise a tide of lighted energy pouring down from the "Centre where the Will of God" is known and pouring into the centre Humanity. Imagine the whole group sounding the affirmation of the Will together:

**In the centre of the will of God I stand.**

**Naught shall deflect my will from His.**

**I implement that will by love.**

**I turn towards the field of service.**

**I, the Triangle divine, work out that will**

**Within the square and serve my fellowmen.**

3. Using the creative imagination, project a lighted seed of 'will energy' into the heart of the thoughtform under construction in connection with the Conference. See myriad streams of 'living will energy' connected to it by co-workers around the world.
4. Reflect for a few minutes on the seed thought:

**"Humanity's destined task is to become the intelligent loving intermediary between the higher states of planetary consciousness, the super-human states and the sub-human kingdoms. Thus humanity will become eventually the planetary saviour"\***

See the essence of any ideas and reflections adding to the potency of the group thoughtform.

5. Visualise the pulsating nucleus of light at the heart of the thoughtform being fanned into a flame by the group gaze and see its radiation touching the consciousness of all participants at the Conference.
6. Quietly sound the *Great Invocation*, imaginatively hearing it being chanted by the worldwide group. As you do so, visualise the outpouring of Light and Love and Power through the five planetary inlets (London/ Darjeeling/ New York/ Geneva/ Tokyo), empowering all who are promoting ecological awareness and awakening humanity's sense of responsibility to the lower kingdoms of nature..

## WORKING WITH TWO GLOBAL CONFERENCES

Dear co-worker,

As you may have noticed the *Cycle of Conferences* initiative is currently holding two major international conferences in focus, visualizing seeds of lighted will energy being planted at the heart of the thought form under construction at both events: the **G7 Leaders' Summit** to take place in Schloss, Germany from June 26 - 28 and the **UN Ocean Conference** taking place in Lisbon, Portugal from June 27 - July 1.

We have sent separate visualization outlines for each event, however we realise that there may be some who want to focus on both events, especially during the few days before they start.

With this in mind we are including here a suggested visualization outline covering both events:
