

CYCLE OF CONFERENCES

Today, in the planning now going forward in connection with the various international conferences and councils of which you all know, the spiritual effort (for the first time in human history) is to bring all of them, as functioning groups, under the direct impact of the energy which motivates and actuates that place where the Will of God is known and the purposes of divinity are defined and projected.

This means that each of the coming world conferences (and there will necessarily be many) will have a greater and far more extensive effect than would otherwise be the case.

G7 LEADERS' SUMMIT

26-28 JUNE

SCHLOSS-ELMAU, GERMANY

THEME: PROGRESS TOWARDS AN EQUITABLE WORLD

THE GROUP OF SEVEN (G7)

Dear Co-worker,

The *Cycle of Conferences* initiative will be placing a focus, as of today, on the G7 Leaders' Summit to be held on June 26-28 in Schloss-Elmau, Germany. This year's theme is "*Progress towards an equitable world*". G7's presidency rotates annually between its members, and Germany succeeded the UK in January 2022, to be followed by Japan in 2023¹.

THE 2022 GERMAN PRESIDENCY

The key theme of Germany's presidency is "*Progress towards an equitable world*", to be approached via the following five main avenues:

1. Strong alliances for a sustainable planet.
2. Setting the course for economic stability and transformation.
3. Enhanced preparedness for healthy lives.
4. Sustainable investments in a better future.
5. Stronger together.

Sustainability in terms of the environment, circular economy, as well as joint action were strongly emphasized in the 2022 agenda by Germany in the beginning of the year, however, the breakout of the war in Ukraine shortly thereafter has made the termination of hostilities priority number one².

Still, the German Federal Chancellor Scholz notes that the ongoing war should not prevent the G7 summit from focusing on the urgent global issues concerning the climate, and energy supply. In fact, if anything, the armed conflict in Ukraine has made the vital need for better solutions in both these sectors painfully clear³.

FACILITATING THE EXPRESSION OF SPIRITUAL QUALITIES

The physical, emotional and mental pain that stems from conflict, especially from conflict that reaches down to the physical plane of everyday life, for failure of it being resolved before it has had the opportunity to do so, is well known to all⁴. That the footprint of conflict can also be followed back to the first traces of human presence on the planet, is also known. From the perspective of the *Ageless Wisdom*, the *Principle of Conflict* is one of the most decisive factors responsible for the evolution of humankind as any emergent or new idea is inevitably met with an established or existing form that embodies an older idea, or even just with an older form of the same idea – a presentation of reality more suitable for a past age.

Still, the *Principle of Conflict* is complemented by the *Principle of Harmony* and throughout history these two seemingly antagonistic but ultimately and essentially collaborative factors, have played out, all the while generating the evolution of understanding, of circumstance, of ends, and of the means to achieve these ends⁵. Everything new is either absorbed into an existing form, thus enriching and vitalizing it, fails to do so, or absorbs the aspects of the older form that remain relevant to the new presentation of the original idea.

Goodwill does not equal the end of conflict, nor does the end of conflict equal right relationship⁶. Goodwill allows the creation and preservation of robust yet malleable forms – robust because their creation draws on the mental, emotional and physical resources of many contributing parts, and malleable because this multilateralism enables dialogue to take place between the many different aspects of essential truth. Within these shared spaces, "some fundamental cleavages which must be bridged by human effort" can come to the fore⁷. Hence, the manifested form, at any time, expresses the degree or quality of Harmony that Humanity or any group can achieve at that time⁸.

This tone of aspiration to multilateralism and joint effort as a means of approaching serious current global issues, has been very clearly sounded by the German presidency as well as by

In multilateralism and inclusiveness, the foundations or the beginnings of *Sharing* can be discerned, which does manifest as right relationship. Although the *Principle of Sharing* does not theoretically entail anything unknown or unfamiliar, its widespread implementation and practice in the affairs of the world still lies ahead. In the meantime, the voices for cooperation and joint activity are steadily multiplying along with the realisation that the issues facing us will be resolved by nothing less than the application of our united subjective and objective resources.

To this end, for the 2022 G7 Summit, the Cycle of Conferences initiative aims to help make the energy of Goodwill abundantly available through the “shared spaces” wherein the best possible solutions – for all involved – to the current global problems can be worked out.

VISUALIZATION

1. Link up with the souls of all fellow servers who are meditating on The G7 Leaders' Summit.
2. Visualise a tide of lighted energy pouring down from the "Centre where the Will of God" is known, and pouring into the centre Humanity. Imagine the whole group sounding the affirmation of the Will together:

In the centre of the will of God I stand.

Naught shall deflect my will from His.

I implement that will by love.

I turn towards the field of service.

I, the Triangle divine, work out that will

Within the square and serve my fellowmen.

3. Using the creative imagination, project a lighted seed of 'will energy' into the heart of the thoughtform under construction in connection with the Summit. See myriad streams of 'living will energy' connected to it by co-workers around the world.
4. Reflect for a few minutes on the seed thought:

"The G7 must fully support and advocate the purpose of solving the world's existential challenges, realizing its power to initiate global collective action. This can serve the preservation of an inclusive, rules- and values-based multilateralism"*

See the essence of any ideas and reflections adding to the potency of the group thoughtform which will help to restructure the global field in accordance with the divine Plan.

5. Visualise the pulsating nucleus of light at the heart of the thoughtform being fanned into a flame by the group gaze and see its radiation touching the consciousness of all participants at the forum.
6. Quietly sound the *Great Invocation*, imaginatively hearing it being chanted by the worldwide group. As you do so, visualise the outpouring of Light and Love and Power through the five planetary inlets (London/ Darjeeling/ New York/ Geneva/ Tokyo), irradiating and enlightening the proceedings of the forum.
